# Modern Survey's Fall 2014 U.S. Workforce Study An Engagement Study Infographic

#### modernsurvey

# Belief in Senior Leaders...

is the #1 engagement driver. Only 51% of U.S. workers have confidence in their senior team.

### Growth & Development...

is the 2nd strongest driver. It is especially important to younger workers and top performers.

#### Most Engaged

Small companies (<1,000 employees) have more fully engaged people than large ones (10,000+)...19% vs. 12%. Managers are more engaged (23%) than non-managers (12%).

## The Takeaway

Employee engagement is at its highest point and disengagement is at its lowest point since Modern Survey began conducting this study in 2007. Despite this good news, people are taking advantage of low unemployment and an improving economy to explore their options.
